

29. (Original)

A presentation material publishing method according to Claim 21,
wherein only when said uploading of said presentation materials is permitted, the uploading
target address is notified to said presenter.

REMARKS

In light of the above amendments and remarks to follow, reconsideration and allowance
of this application are respectfully requested.

Claims 2-9, 11-20, and 22-29 and amended claims 1, 10, and 21 are in this application.

Claims 1-29 are rejected under 35 U.S.C. §102(e) as being anticipated by Chen et al.

(U.S. Patent No. 6,249,281).

Independent claim 1, as amended herein, recites in part as follows:

“...membership registration means for enabling the presenter and the reader to
register for authorized access to said presentation material publishing server and
for authenticating the authority for the presenter and the reader...”

It is respectfully submitted that the portions of Chen as applied by the Examiner
(hereinafter “Chen”) do not disclose the above recited feature. As such, claim 1 is believed to be
distinguishable from Chen.

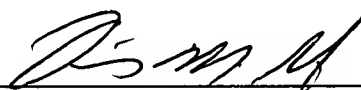

For reasons substantially similar to amended independent claim 1, amended independent
claims 10 and 21 are believed to be distinguishable from Chen.

Claims 2-9, 11-20, and 22-29 depend from one of claims 1, 10, and 21, and, due to such
dependency, are believed to be distinguishable from Chen for at least the reasons previously
described.

In the event, that the Examiner disagrees with any of the foregoing comments concerning the disclosures in the cited prior art, it is requested that the Examiner indicate where, in the reference, there is the basis for a contrary view.

In view of the foregoing amendments and remarks, it is believed that all of the claims in this application are patentable over the prior art, and early and favorable consideration thereof is solicited.

Respectfully submitted,
FROMMER LAWRENCE & HAUG LLP
